You should make ten booklets of MULTIPLICATION Tables per child.

Print the Multiplication booklet cover - page 2 only - on YELLOW paper.
Print 5 sets of copies of pages 3-7 on WHITE paper.

Printing the 2nd side is a bit tricky if you are not familiar with booklet printing.

Pair the following for printing:

Multiplication of ONE with Multiplication of TEN                          (p.3 front with p.12 back)
Multiplication of TWO with Multiplication of NINE                       (p.4 front with p.11 back)
Multiplication of THREE with Multiplication of EIGHT                   (p.5 front with p.10 back)
Multiplication of FOUR with Multiplication of SEVEN                    (p.6 front with p.9 back)
Multiplication of FIVE with Multiplication of SIX                      (p.7 front with p.8 back)

You can print all sets of the first side but it may be easiest to do the back sides one set at a time.

Cut each set of pages in half at 5.5 inches.
Line up the booklet pages with ONE on the top right followed by TWO, THREE, FOUR and FIVE.
Fold all five pages at once with ONE staying on the outside. Add the folded cover.
Staple the center bindings with a long handled stapler
or punch two holes with a heavy duty 2-hole punch and tie binding.
